## ON THE BRINK OF FAILURE NOW

Mediation Stands Today as Result of the Wide Differing of Opinion Existing.

CONFERENCE IS HALTED  
And Concessions Must Be Made or Mediators Will Have to Abandon Their Efforts.

WASHINGTON, D. C., June 19.—Mediation stands today on the brink of failure. Only concession by President Wilson or Huerta can save it.

While the Niagara conference halted, Minister Naon, of Argentina, one of the three South American mediators, returned to Washington for a conference with Secretary of State Bryan and probably to see the president. He planned to start back to Niagara Falls tonight carrying word whether the conference shall proceed or be abandoned. Announcement at the White House that the president stands squarely on the principles enunciated in the statement of the American delegates seemed to make it certain that the United States will not be satisfied with anything less than the choice of a man approved by the Constitution to head the new provisional government. The firm attitude of the Huerta delegates for a so-called "neutral" seemed to hold out no hope of a break in the deadlock.

The situation, admittedly another crisis, was discussed in the cabinet meeting and some sort of an official statement from the president himself was promised. Officials close to the president declared that all talk of further armed intervention or of recognition of Carranza or Villa at this stage was unfounded.

## KNOTTY PROBLEM

Is Whether Colored Family Can Hold a White Child as One of Its Members.

CHARLESTON, W. Va., June 19.—Whether or not a colored family can hold and rear a white child is a legal question which the Charleston city officials are trying to solve. Thomas Watkins, colored, has in his possession a white child, not a year old, and refused to turn it over to the humane officers. Watkins' wife claims that when returning to this city from Washington, Pa., recently a woman boarded the train at Parkersburg and placed the child and a letter in her lap. The letter was signed "Gladys Singlet" and asked that whoever got possession of the child take good care of it, as the mother was only seventeen years old and was not in position to do so. Watkins says he is able to care for the child.

## ROBBERY

Epidemic at Fairmont Causes That City to Hire Several Special Policemen.

FAIRMONT, June 19.—An epidemic of robberies which began a week ago has continued with such great increases that a half dozen plain clothes men have been secured by the city to assist the police. Over twenty-five robberies have occurred in the last week and money and jewelry valued at \$2,500 has been stolen. So far no arrests have been made by the officers.

## ANNUAL REGATTA

Is Opened in New London by Harvard Crews in An Auspicious Manner Today.

NEW LONDON, Conn., June 19.—Harvard crews opened the annual regatta against Yale today in a most auspicious manner from a Crimson standpoint by winning both forenoon races from the Blue oarsmen in an impressive fashion. The Cambridge rowing scholars of Coach Jim Wray won the eight-oared event for junior crews by seven lengths and the freshman eight-oar by four lengths. If the Harvard variety could continue the victory through the four-mile event late this afternoon it meant another clean sweep for the Crimson crews.

## ELKS' REUNION

Held Three Days in the City of Parkersburg Passes into History.

PARKERSBURG, June 19.—The Elks' Reunion, the greatest gathering of the kind in the history of West Virginia, was brought to a close with a dance and reception at Terrapin Park, last night, at the end of a day which marked the colossal pageant which was described by Elk authorities as rivaling the parade of the national organization at Rochester last year.

While the city is still host to hundreds of visitors, the morning trains will carry back to their homes the stalwart men and the handsome ladies who have been the city's guests in three days of unexampled festivity. It was the consensus of opinion among the leading Elks of the state last night that the reunion here of the Elks of West Virginia surpassed in every way any reunion of an Elks' state association held in any state of the union, and it is certain it was surpassing in point of numbers.

A number of delegations or parts of delegations left the city last evening and on the late train last night. Practically the entire Charleston lodge left on the midnight south-bound train, with the expression of thanks, through Chairman of Credentials, B. A. Wise for the courtesy and hospitality not only of Parkersburg Elks but of all Parkersburg people.

## MONTGOMERY TOO POOR TO RUN FOR CONGRESS

Prestonite Issues Statement in Which He Says He is Not a Candidate.

KINGWOOD, June 19.—On the eve of the Preston county joint primary, Senator Samuel B. Montgomery issued the following statement: To the voters of the Second District: My name having been mentioned as a probable candidate for the congressional nomination, I desire to eliminate myself and stop speculation by announcing that at no time have I felt inclined to be a candidate for Congress, and I will not be a candidate.

Going to Congress has grown to be a rich man's game. As a result this government is growing to be a rich man's government. Not being a rich man I cannot afford to go to Congress; neither could I stay in Congress if once elected, as I am not in sympathy with a rich man's government.

The trend of the Second district, and indeed the trend of the nation, is away from the Democratic party. To prove this no argument is necessary. Look about you. If a progressive is nominated in this district he will be elected. If a reactionary is nominated he will be defeated.

To my mind the election of good and true men to the state legislature is the important thing at this time. Governor Hatfield is the most progressive state executive to be found in this country today. He believes it to be the supreme duty of the state to conserve human resources through an enlarged measure of social and industrial justice. To this end he advocates effective legislation looking to the prevention of industrial accidents, occupational diseases, overwork and other injurious effects incident to modern industry.

He also advocates wise and just laws looking to the conservation of the state's natural resources and the protection of the people's interests in our matchless water-power sites.

## THOROUGH TEST

For Oil and Gas to Be Made in Taylor County by Pennsylvania Men.

GRAFTON, June 19.—If the plans of Harry H. Davis of Washington, Pa., are carried out, a thorough test of wells for gas and oil is to be made in Taylor county. Davis, acting with other Pennsylvania men, has stated that he and his colleagues have taken leases on about 26,000 acres of land in Taylor county, most of it in Fetterman and Knottville districts, where rigs are to be put up.

The plan is to put the test wells down through the Bradford, or Tonia sand, which would mean wells 3,000 feet deep. Some of the wells in the Sardis district in Harrison county are of this depth. The extension of the gas belt to Taylor county and beyond would probably mean a step forward in the long-discussed pipe line to supply Baltimore with West Virginia gas.
